

MACHINE NOW MINUS

Calculating Devices Wreck Nerve and Lead to Madhouse

Right, 1928, by Chicago Tribune
The adding machine and all other calculating devices constitute a danger to the health of the human mind, according to the Los Angeles Times. Acting on the complaints of the Los Angeles city health department, the city health officer has ordered the removal of all adding machines from the city health department's files.

Appeal Court Affirms Ruling in Franz Case

ST. LOUIS, May 20. (P)—The heirs of the late Edward J. Franz, whose estate is valued at more than \$4,000,000, retained their appeal from a ruling by the United States Circuit Court of Appeals at St. Louis, which affirmed the decision of the St. Louis court in the Franz case.

MOSES FAVORED BY HOOVER MEN

Tentatively Agreed on as Convention Chief

Secretary to Make Short Stay in California

Campaign Will Be Conducted From Eastern Point

BY ROBERT B. ARMSTRONG
"Times" Staff Correspondent
WASHINGTON, May 20. (Exclusive)—Hoover managers have agreed tentatively on Senator George H. Moses of New Hampshire, president pro tem of the Senate, to be permanent chairman of the Republican National Convention. It has been also practically determined by Hoover advisers to have Assistant Secretary of Commerce Walter Brown of Ohio as the floor convention manager for Hoover. Brown has had much State and national political experience and is expected to be efficient in such a post as that proposed for him.

HEADQUARTERS IN EAST
Mr. Hoover will go there to await the formal notification of his nomination, meanwhile preparing his speech of acceptance. The notification ceremonies usually are held about August 1.

After the notification Mr. Hoover likely will come East for the remainder of the campaign. Where he will make his headquarters, he has not yet decided, but it will not be in his home in this city. Mrs. Alvin T. Hart, vice-chairman of the Republican National Committee, has offered him the use of her country place on Mackinac Island in Lake Michigan.

A great many considerations enter into the selection of a proper place from which to conduct the front-porch campaign that Mr. Hoover will make. It must be accessible and have adequate accommodations for visitors. Its train and telephone facilities must be good.

CAPITAL OBJECTIONABLE
But California, where Mr. Hoover lives, is too far from the more populous parts of the country. The expense to visitors would be too great. Telephone costs would keep down the amount of publicity that would reach the big newspapers of the East and Middle West. The radio will be the main instrument of the Hoover campaign and broadcasting costs from the Pacific Coast would be too high.

Washington also is objectionable as a campaign residence. The capital has no vote. It is too close to the administration. It is felt that the Middle West is the ideal place from which to make the stay-at-home campaign Mr. Hoover will conduct.

KIDDER WINNER IN OREGON PRIMARY
PORTLAND (Or.) May 20. (P)—Herbert Hoover's campaign manager, Fred E. Kiddle, won a place among the seven delegates-at-large to the Republican National Convention on late returns from last Friday's primary election. Kiddle took a spurt on the final count and edged out Dr. L. T. Pennington of Newberg, president of the Pacific College, which Hoover attended as a youth. Earlier returns had placed Pennington seventh.

Gov. Smith of New York, who received the preference of Oregon Democrats for the Presidential nomination, had a total of 15,550 on the latest tabulation today. This included returns from 1928 precincts out of 1783. Senator Walsh of Montana, who had withdrawn from the race after the ballots were certified, received 9754, and Senator Reed of Missouri stood third with 9708. Alonzo P. Workman of Missouri, drew 1284. The missing precincts are small and scattering. The total represented in this tabulation was 32,395, against a total Democratic registration in the State of 83,304.

The total vote for Herbert Hoover, who was unopposed for the Re-

DANCE OF '90'S SHOCKING NOW

"Hoochie-Koochie" of World's Fair Banned by Censors from Historic Film

NEW YORK, May 20. (Exclusive)—A film depicting a dancer performing the dance known as the hoochie-koochie may have been all right in the bay '90's, but it won't do in this city of the sedate black bottom, the New York State Board of Censors has ruled, in refusing a permit for showing a film of the dance, which was the rage at the World's Fair in Chicago in 1893.

The censors found the body shaking of the oriental dancer Patina, the hit of the World's Fair, indecent. They ordered that from a series of films depicting the development of the motion picture the 200 feet depicting the dance be cut.

publican preference in 1902 of the tabulated precincts, was 96,992. The total Republican registered vote in the State is 317,491.

Republican delegates-at-large on the face of the latest returns will be Sam A. Koser, W. A. Carter, F. J. Cook, R. N. Standfield, former United States Senator; W. L. Thompson, Russell Hawkins and Fred E. Kiddle.

On the face returns from 1299 precincts, the four Democratic delegates-at-large will be Bert E. Haney, former member of the Shipping Board; Abby Elderson, John Manning, All Portland, and George L. Curry of Seaside.

American Tries to End His Life in Mexico City

MEXICO CITY, May 20. (P)—An American registered at a hotel here as William Feltbaum of San Antonio, Tex., was taken to police hospital here after a double attempt at suicide yesterday. He is still alive, but his condition is grave and doctors at the hospital do not think he will live. He is thought to have relatives in Pittsburgh.

A note, addressed "an open letter to my friend, Gen. Obregon," also was found near by.

Feltbaum, who is about 50 years of age, has been here about a week. Police headquarters is said to have received recently a mystifying telegram from some one in Pittsburgh, asking them to watch for a man named William Feltbaum, with the warning that he might commit suicide. In his note, the man wrote vaguely of "giving Obregon my life."

Feltbaum is understood at his hotel to have been promoting some moving-picture enterprise. His letter concluded with a request that he be buried in Mexico under the United States flag.

A revolver bullet and poison were the methods used by Feltbaum in his suicide effort.

Boy Dies After Touching Circuit

OAKLAND, May 20. (P)—William Richardson, 16 years of age, hanged Friday as a commercial radio operator, died here last night after touching a high-power circuit in station KFWB.

The boy, a student at Roosevelt High School, had gone to the station to visit Chief Operator Madoli.

Glacier Point Road Now Open

YOSEMITE, May 20. (P)—The opening of the Glacier Point Road leading to the famous viewpoint where the Sierras unfold themselves in a forty-mile panorama has been announced here by Acting Superintendent E. P. Leavitt. This is several weeks earlier than usual, due to the past mild winter.

BOMBING LINKED TO SNYDER CASE

Communists Deny Attempt on Executioner's Home

All Closes Fall Police on Mystery Blast

Work of Amateur Revealed by Fragments

NEW YORK, May 20. (Exclusive)—Communists leaders today denied the suggestion that Sacco-Vanzetti sympathizers may have placed the bomb which wrecked the home of Robert G. Elliott, official executioner for four Eastern States, at Dunton, L. I., early yesterday morning.

"Sacco and Vanzetti were philosophical and nonviolent anarchists, hence their followers would take no hand in wreaking physical vengeance," the police were told.

Though not entirely satisfied that this is the case, Acting Lieutenant William J. Reynolds, head of the bomb squad, his staff of twenty detectives, and other officials investigating the outrage, turned their attention to a small group who might have a definite, possibly unbalanced motive for wishing to kill the gaunt electrician and his family.

It is not impossible that some demented admirer of Ruth Snyder, the blond murderess of Queens Village, and her paramour, Judd Gray, both of whom Elliott sent to their doom in the Sing Sing electric chair, may have planted the bomb, detectives said.

The police have been confronted all along with a wall of mystery.

WHERE TO GET IT

Seen wandering where to buy this thing or that? Glance over the interesting list of articles and services that appears today and every Monday in The Times, under "Where to Find Things."

Efforts to locate a red touring car, containing four men, and seen in the vicinity a short time before the blast, have been fruitless.

Likewise, they have been unable to trace the origin of a new pen-knife found on the lawn in front of the Elliott home.

Fragments of the bomb convince the police the infernal machine was the product of an amateur.

Elliott declined to discuss his plans for the future. On reports he will relinquish his post as executioner and remove his family to a secret address, he refused to comment.

Stimson on Tour of Philippines

MANILA, May 20. (P)—Gov. Gen. Stimson left today aboard the executive yacht Apo on a tour of inspection of the Philippine Islands, the first he has undertaken since he assumed office.

The first stop will be at the Island of Oulu, after which, the executive will visit Mindanao, where the Bulu and Moro chiefs are making extensive plans for a reception. The party includes several members of the Governor-General's staff.

SOCIALISTS GAIN IN GERMAN VOTE

Eighty Mandates Reported Captured by Party

Losses by Nationalist Group Feature Election

Von Hindenburg Out Early to Cast Ballot

BERLIN, May 21.—(Monday) (P)—Decisive gains by the Socialists over their 1926 vote and conspicuous losses by the German Nationalist party, are the outstanding features reflected in the returns up to 3 a.m. of the vote cast yesterday in the national elections of a new Reichstag.

Out of 13,000,000 votes counted at that hour, the Socialists had captured eighty mandates under the proportional plan. It is evident that they will enter the new Parliament with at least 180 Deputies, a gain of twenty over the previous representation, since it is certain that the total vote cast yesterday exceeded 30,000,000.

Notwithstanding a cold driving rain which prevailed all day in Berlin the polling was quite brisk.

President Von Hindenburg was out early and motored to the adjacent Tausentstrasse, where his polling station is situated in an humble beer saloon.

The previous report an especially high percentage of voting.

POOR INDIAN NOT MERELY POETIC

Survey Discloses Average Red Man in Poverty

Luxury and Leisure From Oil Pure Fiction

Research Report Made to Secretary Work

WASHINGTON, May 20. (AP)—Contrasting poignantly with the prevalent slant on the Indian, which pictures him either as driving in luxurious limousines purchased with revenue from valuable oil lands or leading a complacent life on a reservation, is the report of the Institute of Government Research made public by Secretary Work today, which declares that most of the red men are very nearly in want.

The study, one of the most comprehensive ever made of Indian affairs, was authorized by the Interior Secretary and covers 400 pages. In addition to the regular staff of the institute, nine specialists assisted in the work, none of whom were from the Department of Interior, in keeping with Mr. Work's desire for an impartial investigation.

NATIONAL EMERGENCY
The report declares that the con-

STOLEN BURROS FOUND AS MEAT

Missing Pack Animals in Mexico City Turn Up as Beefsteak

MEXICO CITY, May 20. (AP)—Some butchers here have been selling burro meat for beefsteak, the police have discovered. Two have been jailed.

Burro drivers, who camp in the outskirts of the capital with their little beasts of burden, after bringing loads of country produce to town, were mystified at the disappearance every night of some of their burros. The stolen animals were never seen again. There was a good reason, police investigations revealed. They had been slaughtered and retailed as beef.

Sentries now guard the burro drivers' camp and health department agents are watching butcher shops very closely.

dition of the American Indian, socially and economically, constitutes a national emergency that demands immediate attention. It recommends the appropriation of more money to make possible the employment of a more competent personnel by the Indian Service, and increased attention to social and economic problems as contrasted with those that are administrative.

Most of the Indians, the survey says, are poor and are not yet adjusted to the dominant white civilization. Their vitality is low and their death rate high. Tuberculosis and trachoma are prevalent and living conditions among the majority of them are conducive to the development and spread of the disease, it says.

Declaring that the income of the typical Indian family is so low as to place the aborigine little above actual want and that his earned income is nearer, the study says his general condition, in fact, is such as to call for vigorous and immediate expansion of the Indian Service.

Too little attention has been given to the Indian's social and economic advancement, the report declares, adding that the theory of the American people has been heretofore that the Indian Service, as an administrative agency, has had as its chief purpose the control and conservation of Indian property and the care of dependent Indians.

INADEQUATE PERSONNEL
The survey points out, however, that the Indian Service has been unable to employ adequate and properly qualified personnel to perform this ultra-administrative work, as the personnel has been insufficient and in many cases without sufficient technical and professional training to accomplish the work toward social and economic advancement.

Only a digest of the survey was made public today. The full text will be made public in about a week.

Among those who made the survey were Henry Rex Cloud of the Winnebago tribe, Indian adviser and president of the American Indian Institute; Dr. Herbert R. Edwards, medical secretary of the National Tuberculosis Association; Prof. W. Carson Ryan, Jr., of Swarthmore College; Edward Everett Dale of the University of Oklahoma; Miss Mary Louise Mark, professor of sociology at Ohio State University; Dr. W. J. Spillman of the Department of Agriculture; Miss Emma Duke of the American Public Health Association; Ray A. Brown of the University of Wisconsin, and F. A. McKenzie of Juniata College.

Solovich Slayer Eagerly Awaits Start of Trial

MANTI (Utah) May 20. (AP)—Sheldon Clark, 23-year-old slayer of Don Solovich, former butler in the home of Lita Grey Chaplin, was composed on the day preceding his trial on a first-degree murder charge which starts here tomorrow.

When asked how he regards the proximity of the trial, he said: "I'll sure be glad to get it over with. There's not much room to move around here (his cell)."

Self-defense will be the plea of Clark. Lewis Larson, defense attorney, said today.

Mr. Larson, exhibited for reporters numerous letters from various cities throughout the country which enumerated acts of immorality on the part of Solovich and all of which commended his youthful slayer for "riding the world of a social menace."

Lower Prices to Dairymen
TULARE, May 20.—Decrease in prices accounted for a considerable drop in the pay rolls of Tulare institutions handling dairy products during the month of April. Figures of the various concerns show a total pay roll of \$267,823.42. The decrease was generally 4 cents per pound, although volume of butter fat increased over the previous month. Total for March was \$306,000.

Prices paid during April varied from 46 to 47 1-2 cents for sweet cream per pound, while whole milk varied from 53 to 54 1-2 cents. Churning cream brought 43 cents. Institutions included in the report are the Dairyman's Co-operative Creamery Association, the Los Angeles Creamery, the Alfred Pure Ice Cream Company at Tipton, combined with the Paige Company, the Powdered Milk Corporation of Tulare and the Tulare Creamery Company.

PRINCIPAL TO REMAIN
DINUBA, May 20.—G. W. Culbertson, principal of the Dinuba High School for the past year, has been retained for the next year by the Board of Trustees. Announcement has not been made of other positions on the faculty.

MRS. HANNEY TO FIGHT FOR CHILD

Tank-House Girl's Mother Engages Attorney

Says She Will File Suit for Divorce

Husband Decides to Let Law Take Its Course

RICHMOND, May 20. (Exclusive)—While Contra Costa county juvenile authorities and State welfare workers today continued investigation of the imprisonment of little Constance Hanney, 4 1-2 years of age, in a tank house, Mrs. Elmer H. Hanney, the mother, accused of mistreating Constance, prepared to fight for custody of the child. At the same time Mrs. Hanney announced that she is preparing to file suit for divorce against William Warren Hanney, her husband and father of their eight children, because "he doubted the paternity of Constance and one of our other children."

Mrs. Hanney has retained an attorney to represent her in court proceedings the 28th inst. when the case of Constance comes up for hearing. Hanney, former Sacramento police officer, told the authorities he intends to let the law take its course. He has been estranged from his wife for six weeks, although contributing to the support of the family. He disputes Mrs. Hanney's assertion that the child was imprisoned for "only a few days" and maintains that Constance was in the "dark hole" when he left his wife.

If the authorities think it best to get another home for Constance I will not oppose them," he told Dr. R. A. Boyer, Contra Costa county probation officer. "My wife has caused me all the trouble I can stand."

Mrs. Hanney's determination to fight for Constance's custody is a reversal of her attitude at the time the child was found and removed to the County Detention Home at Martinez, according to the authorities. "If you take her from me don't expect to bring her back," she is quoted as having said to Dr. Boyer.

Juvenile authorities today expressed the fear that if the Hanney home is broken up, Contra Costa county may have to find new homes for the other seven Hanney children.

Two Ranchers Electrocuted

BAKERSFIELD, May 20. (AP)—Two Bakersfield ranchers were electrocuted this morning when they received the full force of electricity from a 60,000-volt line of the San Joaquin Light and Power Corporation at the Frank Mehler ranch near Bakersfield.

The ranchers were Joseph Bunch, 42 years of age, and George Mahler, 51. They were killed as they were moving a hay derrick which swung into contact with the power line.

Parent-Teacher Heads Assemble

SANTA CRUZ, May 20. (AP)—Delegates began arriving here today for the California Congress of Parents and Teachers, which is to open Tuesday morning.

A precautionary State board session will be held tomorrow followed by a luncheon for the board members. The Santa Cruz council will greet visitors at a reception tomorrow night.

A Safer Way To End Corns

There is not cutting or prying, no pain or danger in the Cactus way of removing corns. Simply apply Cactus Corn and Callous Compound, a liquid remedy, for a few days. The pain and tenderness stops at once and in a few days the entire corn drops off. That's all there is to it.

A few cents get enough Cactus from your druggist to remove every corn in the family. And it's just as good for callouses. It's the safer, better, quicker, easier way to foot comfort.—(Advertisement.)

Vare, Stricken, Fails to Rally

ATLANTIC CITY (N. J.) May 20. (AP)—William E. Vare, Senator-elect of Pennsylvania, who was stricken with an attack of acute indigestion at his summer home in the Chelona section was reported to be no better by his daughter tonight.

Miss Vare said that her father had been ill for the past week or two and that he came to the shore on Wednesday hoping that the change would be beneficial to him, but shortly after his arrival he became worse.

Costes and Lebrun in Europe Tour

PARIS, May 20. (AP)—Dieudonne Costes and Joseph Lebrun, the globe-circling aviators, began what promises to be a sort of triumphal tour of Europe when they hopped for Beigrade, the first objective, today.

They plan to visit Angora, Athens, Warsaw, Prague, Geneva and Munich. Upon returning to Paris they will begin active preparations for a Paris-to-New York flight.

AMUNULLAH IN ANGORA

ANGORA (Turkey) May 20. (AP)—King Amunullah of Afghanistan and his party arrived here today. President Mustapha Kemal met the visiting monarch at the railway station.

PYTHIANS STAGE STATE CONCLAVE

Fraternal Order Gathers at Visalia

VISALIA, May 20.—Last-minute decorations and arrangements are being completed today for the grand lodge convention of the Knights of Pythias which opens here tomorrow. Booths have been established at the west entrance of the city, the Santa Fe and Southern Pacific depots for detailing information to the delegates as they arrive. Boy Scouts will act as escorts to the visiting Knights of Pythias and Pythian Sisters to their designated quarters.

The Hotel Johnson will be used as the head registration office and a master index of available housing facilities will be established there. About 1000 delegates are expected to attend the convention before close of the week.

Credentials for both Knights and Pythian Sisters will be accepted tomorrow morning and the first grand lodge session will convene at 2 o'clock in the afternoon in the municipal auditorium.

A spectacular parade Wednesday evening, a tour of the orange belt scenic highway through Eastern Tulare county, an overnight trip to Giant Forest, Sequoia National Park, two grand balls, a reception, a three-game baseball series between the Good Fellows' Lodge of Pythians and the Visalia Pirates, are some of the high lights of the week's program.

President's Disapproval of Fall on Measures

Warren and Army Officers Stated for Sorrow

Merchants and Merchant Marine Bills Also in Peril

WASHINGTON, May 20. (AP)—Veto messages from President Roosevelt are looked for this week in connection with the passage of the McNary farm-relief bill in regard to certain, with some indications that the Tyson disabled army measure and some others. The importance also may be that without the approval of the Executive.

There were reports also that the Senate might disapprove the annual State and army bill if Congress insists upon the automobile tax in the revenue measure. But the tax bill is a measure, the automobile bill is repealed if the Senate passes it.

House leaders, however, were not in doubt that Mr. Coolidge would veto the measure.

STRAW HATS COMPULSORY
Italian College Youths Belonging to Fascist Groups
Used to Boost Industry

FREED MAN'S DEATH STILL DEEP RIDDLE
No Motive Determined for
Suicide of Dr. Loomis;
Statement Looked for

DETROIT, May 20. (P)—The motive that prompted Dr. Frank Remington Loomis to take his own life yesterday morning remained undetermined today, no trace having been found of a statement the physician intimated in a note to the police would be received in newspaper offices "within twenty-four or forty-eight hours."

Mrs. Gertrude B. Newall, whose name figured in the doctor's trial a year ago on a charge of slaying his wife, a charge on which he was acquitted, was located today, according to Emil Colombo, an attorney, associated with Dr. Loomis's defense. Colombo said she will be produced "when necessary."

STRAW HATS COMPULSORY
Italian College Youths Belonging to Fascist Groups
Used to Boost Industry

FLORENCE (Italy), May 20. (P)—The "varsity straw" will be compulsory headgear for Italian college youths this summer.

Of a special model of "sober and elegant lines," it will be incumbent upon all university undergraduates belonging to the Fascist groups to wear it. After the manner of Greek letter fraternity hats worn by many American students, the Fascist hats will have the bands of the colors of the students' particular "faculty"—medicine, science, literature, law or philosophy. To tell what particular university a lad hailed from, however, it will be necessary for him to take off his hat. The university or college colors will be worn as lining.

One dealer in every varsity town would disapprove the roads measure since it is in conformity with an agreement between the States and the Federal government of many years' standing.

There is no small amount of speculation as to whether the President will sign the merchant marine bill, which went to the White House in the same envelope with the McNary-Haugen bill. This bill carries a \$250,000 construction loan fund and authorization for replacement of the peace-time merchant fleet at an estimated cost of \$250,000,000.

Some friends of the farm-relief measure contend that the logic of the situation would call for a veto of the shipping measure if the McNary-Haugen legislation should be returned without approval, but leaders in other groups in the Senate said the merchant marine legislation contains features upon which the President had insisted and it was their view that he would approve it.

In this country medical reports show that more people die of heart disease than from any other single cause.

"THERE'S MORE STYLE AND MORE WEAR IN THIS

BOYD'S 2-PANTS SUIT

"THAN ANY SUIT YOU'VE EVER HAD"

No Charge
for the
Extra
Pants

MANY a wise wife has made that discovery about Boyd's 2-pants suits; and it's the truth! Here IS more style and DOUBLE wear at no extra cost; for there's no charge for the extra pants at Boyd's... Why wear trousers with baggy knees?... Why discard a suit when the trousers are worn out but the coat and vest are as good as new?... Those are the extravagances of a single-pants suit... Wear Boyd's 2-pants suits!... Always be smartly dressed!... and get twice the wear from your clothes... These are the advantages you get in Boyd's two-pants suits.

WHITE FLANNELS \$7.50

A wonderful selection of smart, new white flannels for summer sports wear... Plain white or with striped designs in black and soft tan. See them!

2-PANTS SUITS EXCLUSIVELY
Styled for this SPRING and SUMMER

Boyd's is not only Los Angeles headquarters for 2-pants suits, but the largest exclusive 2-pants suit concern west of Chicago... Every one of these smart new Spring and Summer styles have two pairs of pants. Three great groups of super values at \$25, \$30 and \$35... the same prices you have probably been paying for suits with single pants... And all the authentic new models for Spring and Summer are represented. The new fabrics... Lighter colors... Tweeds, Twists, Cheviots, Worsteds, Flannels... they're all here... at \$25, \$30 and \$35.

And remember! Boyd's extends FREE pressing, minor repair and minor alteration service for the life of every Boyd's garment without charge.

BOYD'S STRAW HATS

... Here's a triumphant achievement... Straw hats at \$2.00... Second Swiss Yiddish Flatfoots. All new shapes and styles and ALL \$2.00.

ATHLETES WIN IN ELECTION

Spirited Balloting on Campus of Caltech

Popular Track Men Head of Student Body

Vote Decides Tennis is Major Sport

PASADENA, May 20.—The Evans, track athlete, has been elected president of the California Institute of Technology student body by an overwhelming vote. It was announced last night following the annual spring election at the engineering school.

Evans defeated his opponent, Howard Baker, who has been as student publicity manager in the past term, defeated Lee Horn for the office of student body secretary.

Clyde Shields, football and letter man, was elected student manager. The other members of the management were: O'Hara.

In the race for publicity manager, Charles Dickman won over George Langmer, 151 to 81.

By the narrow margin of six votes, Horace Allen defeated Harry Horn for representative of the large. Elmer Muff, football captain-elect, was chosen as the representative of the small.

The men elected will be installed at the final student-body assembly of the year.

Considerable feeling is said to have been engendered as the result of an attempt to make tennis a major sport. The proposition was finally defeated by the vote of 125 to 123, but many voters are said to have been misled through ambiguous wording of the proposition.

Formal Opening of New Church in Crown City

PASADENA, May 20.—Plans for the formal opening of the new St. Andrew Catholic Church, which has been erected at the intersection of North Raymond and Walnut streets, were completed today. The last services in the old church on North Fair Oaks were held today and the new building will become the center of worship for the parish next Sunday.

A memorial mass and service for all members of the church is being held Monday morning in the new church.

Next Friday, a public service will be held in the new building. The occasion will constitute an assembly of all Catholics in the vicinity and a preliminary session of the formal opening.

The Right Reverend Bishop J. Cantwell, Joseph Scott, M. J. McCarthy, parish priest, May McAvoy and John Hines will take part in the observance.

OLD-TIME CHURCH DAY

REDONDO BEACH, May 20.—Dr. Walter Dexter, president of Whittier College, delivered a lecture at the old-time all-day church day at the First Methodist Church here this afternoon.

The program was arranged by students and faculty members of Whittier College as an expression of second place in the year of Southern California competition. The Rev. J. E. Houlgate was chairman.

ING TAX PROBLEM

City and County Confront Tangle of Operating Without Money

—Vain efforts of the City Council and Mayor to solve the problem that has arisen from consolidation of tax collection offices have been dismissed as wasted worry.

"I am preparing to face the whole situation which I shall present to the people," says O'Keefe. "I am preparing to face the whole situation which I shall present to the people."

TAX RATES LIMITED

The city is limited by the charter to 90 cents on each \$100 valuation for general purposes. This provision, unless this charter provision has been eliminated by consolidation, has been eliminated by consolidation.

This is a question on which the city and county governments have to be decided by the Council. In case the Council is not decided, the question will be decided by the voters.

For these reasons, one of the muddled in the history of the city has been created.

Plans are under way for a complete revaluation of city and county property, which means that the valuation of the city property will reach a figure sufficient for municipal tax purposes, but this revaluation, which is to be financed by the city and county governments, will cost approximately \$100,000, which will take almost a year.

WHAT TO DO

"What to do" in the meantime is the question. The City Assessor and City Collector were laid off yesterday as a result of the Supreme Court's decision. The Assessor's office has been reorganized and the Collector's office has been reorganized.

The City Assessor, Samuel, has been laid off for a six-month collection of personal property taxes, but is still holding in the neighborhood of \$100,000 in taxes, until he is advised by the City Attorney whether it should be returned to the taxpayers.

METHODISTS IN TENURE FIGHT

Reformists Oppose Life Office for Bishops
Authority Curtailment Also Before Conference
Dawn of World-wide Church Being Prophesied

KANSAS CITY, May 20. (P)—Having lost their initial skirmish to reduce the number of domestic Episcopal residences from twenty-one to eighteen, opponents of the Episcopal system in the Methodist Episcopal Church girded themselves over the week-end for the greater battle on Episcopal tenure in the quadrennial general conference here.

A minority report on tenure is before the conference along with the majority report, which recommended that life tenure of bishops be unchanged. The reformists seek election for eight years only, thus bridging somewhat the tenure gap between the ministerial and Episcopal ranks.

FEWER BISHOPS

This issue is to be settled before balloting on the three bishops to be chosen here begins. The number of effective bishops over the world was cut Saturday from thirty-seven to thirty-three, with several foreign bishoprics being abolished to make room for native bishops, whose election the conference has sanctioned.

Before the conference remains also the attempt to curtail Episcopal authority, with election by annual conferences of district superintendents, rather than their appointments by the bishops.

The Episcopacy remained uppermost in the minds of the 864 conference delegates throughout last week, though keen observers believe the church has taken its most important action in history by granting a larger measure of local autonomy to the foreign fields.

WORLD CHURCH SEEN

This action came when central conferences were granted the power to elect native bishops. Only ratification of annual and lay electoral conferences was needed to put this change into immediate effect. Enabling act that would allow China to choose two native bishops, Latin-America two, and India one, were included in the statutory legislation.

The dawn of a world-wide

BULGARIAN KING SPEED DEMON

Boris Takes Engine Throttle And Pilots Train Eighty Miles an Hour

SOPIA (Bulgaria) May 20. (P)—King Boris broke all railroad speed records in the Balkans this week, when just outside Sofia, unknown to passengers, he took the throttle from the regular engineer of the Varda Express and for some time ran the train at nearly eighty miles an hour, which is unprecedented for the slow-moving Balkans.

The passengers were mystified by the speed which toppled them from their seats. At the end of the journey they saw the driver was their King, whose face and hands were covered with soot.

"I was just trying out one of our new locomotives," said Boris modestly.

Methodist Church with foreign aspects abolished was prophesied and the threat of Methodist-episcopal branches in the foreign fields breaking away from the mother church was said to exist no more.

Dr. Lewis O. Hartman, Boston church editor, advanced to first rank among Episcopal timber in his thrilling speech that closed debate on the autonomy issue. He was chairman of the commission of twenty-five that recommended home rule for the church "colonies."

AGREEMENT REACHED ON SHOALS BILL

Compromise Embodies Plan for Federal Company to Operate Properties

WASHINGTON, May 20. (P)—Agreement was reached today by conferees of the Senate and House on the Norris-Morrin government operation of Muscle Shoals bill.

The compromise, which will be put to an early vote in both houses, embodies the House plan for creation of a Federal corporation to operate the properties for the manufacture of both fertilizer and nitrates and the sale of power.

CHARGE HURLED IN SOVIET TRIAL

Two Mine Engineers Accuse Their Attorneys

Government-Appointed Pair Ousted From Case

Prisoners Urged to Plead Guilty of Plotting

(Copyright, 1935, by Chicago Tribune.) RIGA (Latvia) May 20. (Exclusive)—A new sensation developed in the Moscow trial of fifty-three engineers and former mine owners in the Donets coal basin, when two engineers addressed a plea to the court to discharge their attorneys, who were appointed by the government to defend them.

Both engineers related how Attorney Muralov visited them in prison and continually reminded them that they were under threat of being sentenced to death, urging them to change their statements which were made in the Cheka and plead guilty, confess plots to destroy the mines and throw themselves on the mercy of the court. The court granted their request.

Since the opening of the trial a majority of the prisoners have informed the court that they will plead not guilty to the charges.

LENGTHILY REPORTED

All the soviet papers are filled with lengthy accounts of the proceedings.

Mass meetings are being held by Russian factory workers, who a week ago received an afternoon off to listen to speeches by the Communist directors to pass resolutions demanding that the Hungarian government free Comissar Bela Kun and denouncing the engineers, passing resolutions demanding that they be sentenced to death.

Under cover of the theatrically staged trial in Moscow, the Cheka is making a general housecleaning of grafting by Communist officials and scores of other government concerns. Communist embassies are being sent to long terms of imprisonment after short trials, with only an item being published in the soviet press.

TRUST HEADS SENTENCED

Wednesday's Tasseta reported that six directors of the Kazan tobacco trust were sentenced to ten years for squandering several millions of rubles; eleven directors of the Dagestan wine trust were sentenced to from ten months to five years because their books showed a shortage of about 2,000,000 rubles; ten leaders of the northern chemi-

CENT BUYS MUCH ON THIS ESTATE

At Sandringham, King George's Farm, Penny Good for Many Things

SANDRINGHAM (Eng.) May 20. (P)—The services and skill of King George's residential doctor for 2 pence (4 cents) a week per family are one of the many advantages of the employees on the royal estate at Sandringham that are due to the benevolence of His Majesty.

The penny is a powerful coin at Sandringham for this amount each week entitles workers on the estate to use a well equipped club replete with billiard room, library and reading room. Beer may be obtained here at reduced prices.

On Saturdays popular concerts are arranged and again a penny covers admission, children one half-penny. The proceeds go to charity.

The estate contains many fine homes for the widows of estate workers, and retiring employees receive a pension with other advantages.

cal trust were convicted of accepting bribes and selling their output at below cost to private speculators, while at Smolenski the entire staff of the Cheka's criminal investigation department was arrested and sent to Moscow charged with being involved in bribery.

Other reports from Kiev, Karakol and Leningrad reveal that while the trial of the engineers is occupying the attention of the workers, more important criminal cases, involving Communists, are being liquidated, every issue of the Moscow papers being filled with short reports of their sentences.

Slain Marine New York Man

MANAGUA (Nicaragua) May 20. (P)—Corp. William L. Williamson, home address unknown, was the marine killed in the clash with rebels near Paso Real last week, word brought here by aviators today said. The name of his comrade, wounded in the same encounter, is Private Max M. Dubois of Livonia, N. Y., son of Cornelius Dubois.

SCANDAL HINTED IN FOUR DEATHS

Executed Mexicans Falsely Convicted, Says Paper.

Testimony Given by Officer Later Discredited

Priest, Three Companions Believed "Railroaded"

MEXICO CITY, May 20. (P)—The newspaper Excelsior charges that four men who were executed last November were "convicted" on testimony given by Detective Alvaro Basall, who has been ordered to the penal settlement of Tres Marias on charges of extortion by false charges against Catholics in Mexico City.

The four men, including a Catholic priest named Projeares, were executed in the courtyard of the Mexico City police headquarters after they had been found responsible for an attempt to assassinate Gen. Alvaro Obregon.

"RAILROADING" HINTED

At the time of the executions the newspapers printed a statement attributed to Roberto Cruz, Chief of Police, to the effect that the priest and his companions had confessed their guilt after an examination, which apparently was in the nature of a secret court-martial at police headquarters. Catholics have asserted that the men were innocent and were "railroaded" because an execution was necessary after the attempted assassination, but such opinions never have been expressed publicly.

The Department of the Interior has issued an order that persons arrested hereafter for violations of the religious laws "shall be placed at the disposition of the Attorney-General of the republic." This is construed as intended to prevent abuses of police power.

PRIEST REPORTS ATTEMPT

Excelsior says disclosure of the extortions came when a Catholic priest recently reported to the police headquarters that a detective had threatened him with arrest for violation of the religious laws unless he paid him money. Chief Cruz ordered an investigation.

Benito Guerra Leal, secretary-general of police headquarters, led the investigation which resulted in trapping Basall. Three accomplices have been arrested and others are being sought. It is said they systematically extorted money from persons whom they had threatened with arrest.

WILL DISCOVERY

Reveals Humans in
13,000 Years
Address Americanist
Congress in New York
Descendants of Uru
Still Surviving

(Bella) May 20. (P)—
The elusive Sandino is photog-
rapher shy. Many attempts have
been made to snap the swarthy lit-
tle leader since he came into promi-
nence through the guerilla warfare
which has kept American marines
so busy.

But Sandino objects to having
cameramen come near him, re-
gardless of their nationality. Many
pictures of him have been published
in recent months. Yet men who
know him well express doubt as to
whether any photographs of Sandino
have been taken for several
years.

Although Sandinistas deny that
their leader fought with Villa in
Mexico, there is a great resemblance
between the tactics of the two lead-
ers. Sandino invariably directs his
forces from a position some distance
from the scene of action, so marine
officers say. He never leads his men
in action in major operations.

ORATOR AND WRITER
Sandino is an orator and letter-
writer as well as a warrior. And
Nicaraguans who receive his letters
heed them. American marine of-
ficers have received many notes
from the elusive leader, who has fre-
quently challenged them to come out
and fight. Civilians who are carry-
ing on business operations in the
northern zone of Nicaragua, where
Sandino operates, also have many
communications from the intrepid
little letter-writer advising them
that they must pay for the privilege
of carrying on their affairs in the
zone where he claims sovereignty.

Here is a letter he wrote to lum-
ber contractors who were cutting
timber in the domain Sandino
claims.

"To the Concessionaires of the
Traitorous and Spurious Govern-
ment of Adolfo Diaz:
"In view of the enterprises of ex-
ploitation of woods undertaken by
yourselves in the zone controlled by
the maintainers of the national dig-
nity, you have not fulfilled the nec-
essary payment of duties pertaining
to this command.

MEANING PLAIN
"I have to state that in order to
have ample and effective guarantees
you must apply to this office and
pay the taxes upon receipt of which
the necessary orders that you be
permitted to work freely will be is-
sued. In consideration of your na-
tionality I am granting you this
privilege, especially as I know there
is no reason for you to dislike me
nor to obstruct our right to main-
tain the sovereignty of our country.
Your refusal will lead me to believe
you are opposed to our principles
of freedom, and consequently I will
be compelled to give orders for the
suspension of your works by all
means.

"I take it for granted you know
what the intention stated in my
note is, that you will give it a fair
interpretation and will comply with
the requests rectified. Country and
liberty.

SANDINO AFRAID OF CAMERAMEN

Many Attempts Made to Snap
Little Warrior
Nicaraguan Leader, Orator
and Letter Writer

His Demands for Taxes Made
in Writing

MANAGUA (Nicaragua) May 20.
(P)—The elusive Sandino is photog-
rapher shy. Many attempts have
been made to snap the swarthy lit-
tle leader since he came into promi-
nence through the guerilla warfare
which has kept American marines
so busy.

But Sandino objects to having
cameramen come near him, re-
gardless of their nationality. Many
pictures of him have been published
in recent months. Yet men who
know him well express doubt as to
whether any photographs of Sandino
have been taken for several
years.

Although Sandinistas deny that
their leader fought with Villa in
Mexico, there is a great resemblance
between the tactics of the two lead-
ers. Sandino invariably directs his
forces from a position some distance
from the scene of action, so marine
officers say. He never leads his men
in action in major operations.

ORATOR AND WRITER
Sandino is an orator and letter-
writer as well as a warrior. And
Nicaraguans who receive his letters
heed them. American marine of-
ficers have received many notes
from the elusive leader, who has fre-
quently challenged them to come out
and fight. Civilians who are carry-
ing on business operations in the
northern zone of Nicaragua, where
Sandino operates, also have many
communications from the intrepid
little letter-writer advising them
that they must pay for the privilege
of carrying on their affairs in the

"AGUSTO S. SANDINO"
ALWAYS DIRECT
Even as a boy Sandino was di-
rect in his methods. While he still
lived on his father's little farm,
young Sandino, who is now only 29,
got into a dispute with a neighbor
over some beans. The beans which
the neighbor sold to Sandino were
not up to the quality represented.
The boy sustained loss in marketing
them in Managua, where he sold the
neighbor to make good the loss. The
neighbor replied by striking the
boy in the jaw. Young Sandino shot
the neighbor in the leg, and was
compelled to flee the country.

The young refugee made his way
into Mexico and worked there for
several years in the fields and in
mines. He returned to Nicaragua
from Mexico three years ago and ob-
tained employment at a gold mine
at San Albino, where he worked as
mechanic and clerk for Charles But-
lers, an Englishman. When the
revolution broke out between the
Liberals and Conservatives in Au-
gust, 1926, Sandino gathered a
group of followers and began fight-
ing the Conservative government.

Printed Dimities, 29c

There are dimities and dimities—but these are the
prettier dimities in those fascinating patterns and soft
color blendings that suggest so many delightful sum-
mertime frocks. The desirable light grounds prevail,
with conventional and floral patterns about equally
divided. Yard wide—choosing hard only because so
many are so lovely.

Indian Head, yd. 39c

Plain or printed Indian Head—good patterns—and
the fabric itself needing no comment as to quality,
service and utter desirability. Hard to keep it stocked
ahead at the regular price—so 39c should mean busy
counters.

Imp'd Organdies, 55c

What more fitting for the feminine mood of the mode
than these dainty yet highly practical organdies—al-
ways as fresh as a daisy. These, of course, are those
with the permanent finish—in a host of plain rainbow
colors. 45 inches wide.

Silk & Lisle Crepe, 65c

Just a lot of good points to this new fabric. Soft,
silk, drapery, tub-fast, serviceable. A variety of
smart geometric and floral patterns make choosing most
interesting.

"Satin" Rayon, 95c

When one thinks of all the pretty uses for this satin-
finished rayon one wonders what we used in place of
it before it came! Woven from lustrous rayon yarns,
one of its chief charms for Californians is its sun-re-
sistance. Beautiful colors.

SECOND FLOOR—BOTH STORES

—match your luggage with A Dyas Tak-A-Long

795 to 1000

Convenient little leather cases in which to drop your
toilet articles. Will slip nicely into any bit of luggage
—made in two practical sizes 6x6x3 inches or 12x7x3
inches. Leather lined. Match your luggage with the
various shades of hog-hide, walrus, cowhide.

"If this guy don't hurry up we'll be late."

CHUCKLES from LIFE

Why Not?
"Well, my lad," spoke the bearded physician, "I find you are suffering from an assorted crop of suppressed desires. You are also the fortunate possessor of three types of complex: Superior, inferior and ulterior. Your thyroid gland is slightly out of focus, while neurologically your reactions are poor, very poor. I find definite traces of dual personality and chronic melancholia. You live in a dream world and are mixed up in five or six interlocking personalities, including the Scandianavian. I think you are perfectly safe. Go ahead. Good luck. No

Jury in Denmark will convict you."
"Thank, doc," gratefully answered Hamlet. "Do you know where I can have a dagger sharpened?"
ARTHUR L. LIPPMANN.
An Order
"Are you a fiction writer?"
"Yes, that's my business."
"Oh, won't you think of a good name for my new police dog?"
Pet Luck
I like to golf with Susan, but Marie would rather pet than put; With less of putting, more of petting.
A lot more out of golf I'm getting.

AIR MAIL

America's Model Airline Will Use PENNZOIL

WITH the arrival of the Western Air Express de Luxe 14-passenger Fokker airplanes there will be launched one of the greatest advances ever made in commercial aviation. These planes will be flown on the Model Passenger Carrying Air Line to be operated by Western Air Express, Inc., between Los Angeles and San Francisco.

The Guggenheim Foundation for the Promotion of Aeronautics is sponsoring this project. After a nation-wide survey, Western Air Express was chosen to operate the model Air Line because of its outstanding success in the field of aeronautic transportation. Over 1,000,000 miles have been flown by its planes between Los Angeles and Salt Lake City without a single fatality.

The project is to demonstrate the safety, luxury, convenience and speed of modern air travel, as well as its economic soundness.

Each of the planes is equipped with three 425 H. P. Pratt & Whitney Wasp engines and will cruise at 120 miles per hour average speed—150 miles top speed. All have the luxurious appointments and comfort of a Pullman.

The Safe Lubrication of Pennzoil has contributed in no small measure to the splendid success of Western Air Express lines, which has brought them this signal recognition. It is only natural that Pennzoil will be used in this organization's latest and most ambitious undertaking—the same regular, every-day Pennzoil that can be obtained from 10,000 independent dealers in the west.

Spotify Object

**Chairman of Commerce Still
Will Cooperate**

For the All-Year Club, the fund campaign will begin June 1, next, according to an announcement yesterday by Victor Girard, chairman of the committee of leading business men directing the drive.

In the last seven years the All-Year Club has won recognition throughout the world as the organization of the business and financial community of Southern California.

Mr. Girard said: "The past two years funds have been raised for the purpose of advertising the club and the industrial and commercial activities of the Chamber of Commerce. The fund campaign for the current 1928 campaign has been this, however, it has been to raise funds for the purpose of advertising the club and the industrial and commercial activities of the Chamber of Commerce. The fund campaign for the current 1928 campaign has been this, however, it has been to raise funds for the purpose of advertising the club and the industrial and commercial activities of the Chamber of Commerce."

CO-OPERATE

For the All-Year Club, the fund campaign will begin June 1, next, according to an announcement yesterday by Victor Girard, chairman of the committee of leading business men directing the drive.

Trinity. 5631

TROPICS TO BLOSSOM HERE

Commonwealth Canyon, in Griffith Park, is to be turned into a "Garden of Allah" by the Park Department. The new palm house has been completed and work of making the spot the most tropical in appearance of any in the State will begin today.

Coconuts for planting have been received and orders have been placed for Hawaiian pineapple plants. Spokes and papaya have been grown in the nursery for trans-planting to the palm house.

Young Dr. Frank P. Barham, Harry Chandler and Edward A. Jackson, vice-chairman, and C. F. Peterson, treasurer, of the All-Year Club, were organized in May, 1921, by a group of leading business men in Los Angeles to nationally advertise the desirability of Southern California's summer climate, in order to dispel the idea in the minds of easterners that this was a torrid section in summer.

It was appreciated by these business men that if a sufficient number of visitors could be brought here in the summer, local business, which had previously suffered a marked slump during the summer months, could be brought up more nearly on a par with the thriving winter business.

MODERATE START

"Starting with a moderate appropriation in 1921, with advertising directed to the people in Arizona, New Mexico, Utah, Nevada and Texas, 15,000 inquiries were obtained, and it is estimated that 100,000 persons came here during 1922 as a result."

"For the first two or three years the entire advertising effort was concentrated on attracting summer visitors and though recently the appeal has been broadened to include winter visitors also, the major effort still is directed toward summer vacationists."

"The scope of the campaign gradually has been widened, until, in 1927, approximately \$500,000 was invested in national magazine and newspaper advertising, with millions of individual invitations to visit Southern California being published in twenty national magazines and seventy-nine leading newspapers. As a result, 60,563 direct inquiries for information about Southern California were received during 1927."

OFFICERS OF CLUB

Officers of the All-Year Club are: Executive committee: Harry Chandler, chairman; Victor Girard, vice-chairman; C. F. Peterson, treasurer; Frank P. Barham, secretary.

NEW ANGELENO AND TALKATIVE PARROT

Latest Arrivals
Mrs. Ulysses G. McQueen and
Dick, who has 400-word vocabulary.

**Relief Worker
and Traveler to
Make Home Here**

Mrs. Ulysses G. McQueen, war relief worker, globe-trotter and publisher of the first British newspaper in Jerusalem, arrived here yesterday from New York to make her permanent residence in Los Angeles at 114 North La Brea Drive.

Mr. McQueen, retired New York business man, who also has extensive holdings in Florida, which he deserted for California, arrived here several weeks ago to prepare the home.

Mrs. McQueen came into prominence during and after the war when she established several relief stations in the Near East. She went into Jerusalem with Gen. Allenby's victorious troops.

On recent world tours, Mrs. McQueen was entertained by the King of Siam. On her tour of 1927 in Italy she was favored with an interview with Mussolini.

Not the least of the McQueen ménage moving to California for permanent residence is Dick, an extremely garrulous parrot, who boasts some vocal ability and has about 400 words and phrases at the end of his tongue.

**Week's Agenda
for City Club
Holds Interest**

"Is modern high school instruction satisfactory?" is the subject to be discussed at the open forum of the City Club this evening, following a banquet at 6 o'clock. The speakers will be J. H. Schweitzer of Huron High School, Iowa; J. H. Williams of Pomona High School, W. B. Taylor of Santa Ana High School, G. O. Kennedy of Pasadena High School and Dr. Constantine Panamias of Whittier College.

Three meetings of interest will be conducted at the club at noon tomorrow. Col. James W. Everington will address the county and municipal government section on "How to Control Commercialized Vice in Los Angeles. Rugby Ross, A. H. Koebig and other speakers will address the harbor section gathering and the members of the international relations section will discuss "The Chinese Situation."

Wednesday at noon Mrs. Susan M. Dorsey, president of the Los Angeles City Schools, will be the speaker, following a one-act play called "Bonds of Vagabonds" to be given by students of the junior high schools. Friday at noon there will be a community sing and on Friday evening a smoker and entertainment for men will be given.

**Ralph Spence
Sues Christie
Film Company**

Ralph Spence, once referred to by a critic as the "Dean of motion picture subtlety-wise-crackers," has joined the array of Hollywood litigants who will seek balm and other things during the fall seasons of Superior Court.

Spence appears as plaintiff in a suit for \$200 against the Christie Film Company, producers of motion-picture comedies. He relates that he was employed by the defendant to furnish the smart cracks for "Tiller's Punctured Romance" at a stipend of \$5000 and that only \$2000 of the amount has been forthcoming from the Christie organization.

Spence asserts the defendant expressed satisfaction with his work and that he deems it no more than fair to receive the \$5000 he asserts still is due him.

Attorney Roger Marchetti filed the complaint.

**Milady's Bath
Alcohol Sends
Mate to Prison**

Three gallons of alcohol daily is more than required by the average woman for alcohol rubs, in the opinion of Superior Judge Craig, who denied the plea of Joe Caruso for probation, when he told the court that the still found in his home was maintained solely for the purpose of providing alcohol used in keeping his wife in the pink of physical condition.

But before Judge Craig passed sentence he investigated statistics which he says prove conclusively that one pint of alcohol daily is sufficient to give any modern Venus all the alcohol rubs her needs require.

When questioned by the court Caruso admitted that he paid \$350 for the still and equipment. The judgment was that Caruso shall spend from one to five years in San Quentin prison.

Vogue Patterns
are the quickest, easiest road to
INDIVIDUALITY IN DRESS

VOGUE PATTERNS are not created for the multitude. They are made especially for women who recognize and demand the best in clothes.

VOGUE shows the best in clothes. The smart, well-to-do, travelled and fashionable women of both hemispheres know that Vogue reports fashions with more promptness, chooses them with more judgment, presents them with more distinction, and writes of them with more authority than any other periodical in the world.

Vogue Patterns are absolutely authentic in mode, and charming in taste. Today, smart clothes must be feminine in feeling, individual in adaptation to the figure and personality of their wearer, and appropriate to the time and occasion for which they are chosen. Vogue Patterns provide these fashion-requisites . . . in terms of Paris at the moment . . . with full directions for cutting, fitting and finishing complete.

Fashions for Five Feminine Types

AT THE left above, the business woman finds a simple scarf-necked frock of printed silk . . . a time and chic saver . . . suitable for the office and tea afterwards.

Next to her the more leisured clubwoman or bridge-player sees the advantage of a graceful dress of semi-sheer crepe, cool and flattering . . . several of these in different colours will be useful all summer long.

In the centre, the debutante wears the crisp and youthful ruffled mode with long-tailed sash, in taffeta or moire.

After which, the college girl finds colour, charm and economy in a plain blouse that may be combined with a printed crepe skirt and matching scarf . . . using the blouse pattern in several colours to match one or another of the colours in the print.

And finally, the sportswoman looks immaculate and efficient in sleeveless white pique . . . these dresses are also good in pastel colours.

Each of these types may choose a full wardrobe from the designs prepared for her by Vogue. These are just eye-teasing samples.

Vogue Patterns are issued in New York and mailed direct to Los Angeles every two weeks. Most of them are priced at 65 cents. Blouses, skirts, children's clothes, 40 cents. "Special Patterns" to fill needs that do not occur in the average smart wardrobe, \$1. Vogue Patterns are purchasable in Los Angeles at

**Judges Report
More Winners
at Eisteddfod**

Additional awards in the annual Eisteddfod of the Welsh Eisteddfod Society of Los Angeles, held at Pacific Hall Friday and Saturday, were announced yesterday.

The judges' report of additional winners follows:

Violin solo, Gladys Suesabrick; essay, Michael Hughes; writing, Gladys Williams; solo (under 21 years of age), George Adams, Occidental College; recitation, Ruth Jones and Clara Foglesong, tied for first place; violin solo (under 14 years of age), Eddie Ray; poem in memory of E. L. Griffiths, prize divided between Richard Lloyd and David Jones; soprano, Mattie Ellis; epigram, Robert R. Thomas; har-

mony solo, George Adams; translation Welsh to English, Robert Williams; translation English to Welsh, Evan Evans; challenge solo, Gomer Morban, and mixed chorus, Welsh church choir, led by E. W. Davies.

**Central Library
Displays Prints**

"Fifty Prints of the Year" now on exhibit at the Central Library lecture room include the work of a number of California artists. Frank Geritz has a color print, Not Partidge has an etching, Frances Gearhart, Charles Keeler, Armin Hansen, J. W. Winkler are other local artists represented.

This is a traveling exhibit sponsored by the American Institute of Graphic Arts, sent to large cities for the purpose of showing the work of printmakers of modern tendencies who are gaining recognition. It will continue until next Saturday.

**Theatrical Cast
Arrives Here on
Tourist Special**

The first tourist special train to leave New York City when the summer rates went into effect arrived here this week-end bearing the "Command to Love" company for its engagement at the Belasco Theatre.

The company left New York shortly after midnight the 18th inst. and without the usual change of trains in Chicago traveled straight through via the Santa Fe.

In the company are Mary Nash, Paul Rathbone, Violet Kemble Cooper, Henry Stephenson and others. Fred J. Butler of the theatrical producing firm of Belasco and Butler chaperoned the easterners to Los Angeles. Accompanying the party is John Turk, eastern producer, who is arranging with Butler for the presentation here at the Belasco of a number of eastern plays following the brief engagement of the "Command to Love" company.

GROUP IN HOLLYWOOD FAVORS SCHOOL BONDS

The East Hollywood Improvement Association officially has gone on record in favor of the school-bond

issue to be voted on June 2, according to announcement yesterday said Mrs. Mary E. Cook, secretary. The organization yesterday sent a copy of a resolution adopted by its board of directors to the Board of Education approving the issue and promising to work in getting out voters in favor of the bonds.
